

Drift

HAWORTH®

Mobile  
working\_

\_Enabled

Drift is a versatile accessory for breakout, office and meeting spaces. Mounted on castors, it is easy to move and set up and provides you with a mini adjustable workstation wherever you need to be.

Drift is perfect for solo or collaborative working and has room for 2 people to sit with their laptops. The smooth metal coated surface means you can write or move your mouse accurately.

The simple, quick release makes adjustment very easy, with an adjustment range of 400mm, so you can sit correctly in even the most relaxed environments. Drift will support your laptop with ease and even provides hanging space for small bags.

Drift was designed by Johannes Torpe Studios (JTS) in collaboration with Haworth Asia Pacific. JTS is an internationally oriented design studio, producing work for clients across Europe and Asia. It is a creative melting pot representing a design/musical crossover. They have developed a tangible and intangible idiom – a language of creative simplicity expressed in cutting-edge designs and award winning performances.
