NZ Made Sofa beds

Family gatherings, parties, special occasions... all times when you can end up with more guests than you have beds.

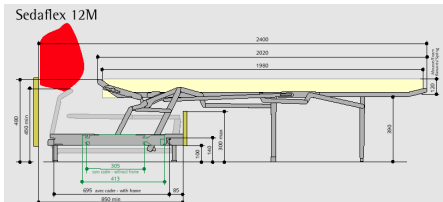

Deluxe action with fully sprung mattress, beech slats and webbing at the "seat" end to ensure more comfort when used as a sofa.

Frames

All our frames are made with solid pine, which are no way inferior to those made with the traditional hardwoods, enabling us to use a renewable resource. All frames are stapled, blocked and glued to ensure soundness with some movement being normal. Slat Mechanism imported from Belgium.
